

Use Your Voice to Pay Your Bills — With iPay QuickPaySM

What is iPay QuickPay?

iPay QuickPay is the skill that lets you access your bill pay account on your Alexa-enabled device — all with a simple voice command. You can ask Alexa to make payments, provide your payment history and check your scheduled payments.

You can even make person-to-person payments using iPay QuickPay. Simply add the person as a payee in your bill pay account and then you can tell Alexa who to pay and when.

How to Set Up the iPay QuickPay Skill

You'll need a bill pay account to use iPay QuickPay. If you don't have an account yet, contact us for help getting started.

First, you'll need to add Alexa to your bill pay account. Here's how:

1. **Log in** to your bill pay account
2. **Select** the "My account" tab
3. **Go to** the Voice bill pay section **(A)** and select "Add Alexa" **(B)**
4. **Answer** the challenge questions
5. **Create** your credentials and submit

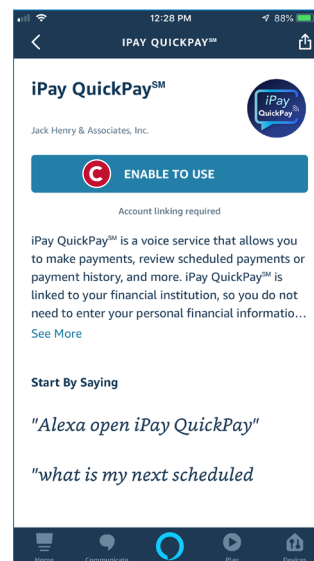

Then you can link your bill pay account to iPay QuickPay.

1. **Open** the Alexa App on your mobile device
2. **Search** for the iPay QuickPay skill and choose "Enable to Use" **(C)**
3. **Enter** the voice bill pay credentials created within bill pay
4. **Create a 4-digit PIN** that you will remember — this PIN will be requested every time you launch iPay QuickPay
5. **Select** "I agree, Link Account"

Now you're ready to make a payment.

1. **Say**, "Alexa, start iPay QuickPay"
2. When prompted, **provide your 4-digit PIN**
3. **Tell Alexa** the company or person you'd like to pay, the amount of the payment and the payment date
4. Alexa will **confirm** your payment has been scheduled

To get started, log in to bill pay and set up the iPay QuickPay skill today.
